AGENDA ITEM TITLE: REPORT - Legislative Committee Update

I. MOTION

This item is a report back only, but does include an Order to memorialize the proposed changes to the Lane County Legislative Principles and Priorities Document. In the event the Board decides to formalize these recommendations, staff suggest the following motions:

Move to adopt (via Board Order xxx) the updates to the Lane County Legislative Principles and Priorities document to include the amendments recommended by the Lane County Legislative Committee arising from their August 31, 2023 meeting and included by reference as Attachment A to this September 26, 2023 Board Memo.

II. AGENDA ITEM SUMMARY

This is a report from the Lane County Legislative Committee which met on August 31, 2023. This report back summarizes a discussion about draft principles emerging priorities for the Oregon 2024 Legislature and the 2024 United Front effort.

III. BACKGROUND/IMPLICATIONS OF ACTION

A. Board Action and Other History

The Board of County Commissioners regularly takes positions on specific legislation. Typically the Board adopts recommendations of the Committee after their review, but can

also take positions on specific legislation if timing of Committee meetings does not allow for the Committee to make recommendations in a timely manner.

The Board memorializes these decisions by making changes to the Lane County Legislative Principles and Priorities document, a comprehensive yet dynamic summation of issues important to Lane County and which guides organizational-wide advocacy involving the Oregon Legislature and the United States Congress, as well as administrative rulemaking arising from adopted laws.

The Board last acted on January 31, 2023 when it adopted Order 23-01-31-03 which amended the Legislative Principles and Priorities document by adding legislative principles specifically identified to prepare the organization for the 2023 “Long Session” of Legislative Assembly and the federal priorities for the annual United Front effort, and establishing respective priority funding efforts.

B. Policy Issues

Participation in the state and federal political process is initiated by participation in Lane County’s Legislative Committee, established in Lane Manual Chapter 3, Section 3.670, and Administrative Procedures Manual Chapter 1, Section 10. Additionally, the Board of County Commissioners adopts Legislative Priorities and Legislative Principles. The Principles are broad statements designed to cover a breadth of county concerns, while the Priorities are specific bills or initiatives.

The By-Laws of the Committee mandate that each meeting of the Legislative Committee there is a review of the Principals and Priorities document.

C. Board Goals

The Strategic Priorities of Lane County’s 2022-2024 Strategic Plan of Safe, Healthy County, Vibrant Communities, Robust Infrastructure, and Our People & Organizational Health are each represented in the legislative priorities adopted by the Board.

D. Financial and/or Resource Considerations

There is always the possibility of financial and/or resource considerations stemming from the actions of state and federal legislation. The Oregon Legislature did finalize the 23-25 is Oregon biennial budget prior to adjourning Sine Die on June 26, 2023, but the short session of the Oregon Legislature often makes adjustments to the adopted budget, or deals with other spending issues. For example, it is anticipated that the ’24 session will address reform issues related to Ballot Measure 110, and ongoing questions about the adequacy of Community Corrections funding.

E. Health Implications

There is always the possibility of health implications stemming from the actions of state and federal legislation. The Board has a keen focus on homelessness, housing, and

behavioral health issues, each of which will likely be addressed in some fashion during the '24 session.

Lane County
Legislative Principles and Priorities
DRAFT for Board of Commissioners Consideration September, 2023

The Lane County Legislative Principles and Priorities provide a framework for the Board of Commissioners and the Lane County staff to work within. These documents serve as a reference for legislative positions and objectives while providing direction for the Board of Commissioners and staff throughout the year. The County's Legislative Principles and Priorities are the foundation of a focused advocacy strategy.

Objective

The primary objective is for the Lane County Board of Commissioners to adopt official positions on clearly stated legislative issues at the start of the legislative session and in advance of the annual United Front trip. The legislative approval process is streamlined by receiving clear direction from the Board on pertinent legislative issues at the beginning of the legislative and Congressional sessions and this is accomplished by adoption of the Principles contained in this document.

The Principles are designed to provide guidance to Intergovernmental Relations staff on policy issues that arise during the Legislature and Congress and for which insufficient time exists to fully vet the issue through a formal convening of the Legislative Committee. Priorities are specific legislative initiatives that typically involve the drafting, introduction, and advocacy involved to get a bill passed into law. Legislative Principles and Priorities shall address issues directly relevant to or impacting the provision of county services.

Federal and state legislative proposals and policies consistent with the Legislative Principles may be supported by the County. Those policies or proposals inconsistent with this agenda may be opposed by the County.

For proposed legislation consistent with the County's Legislative Principles and Priorities, the County Administrator or designee shall be authorized to prepare position letters on behalf of the Board or an individual commissioner, and affix the Board Chair's or the individual commissioner's signature to those letters as appropriate. In both instances, the County Administrator or designee will provide the Board with a copy of the signed letter. Items not addressed in the County's Legislative Principles and Priorities may require further Board direction.

County departments are encouraged to monitor and be knowledgeable of any legislative issues related to their discipline. However, any requests for the County to take positions on a legislative matter must be directed to the Intergovernmental Relations Manager. County departments may not take positions on legislative issues without the Legislative Committee's review and approval, or a clear Principle or Priority to support their work.
