Board Goals:	Safe and Healthy County. Support partnerships and collaborations to improve the health of our community.
Purpose:	Award Contract

Contractor:	Plaza De Nuestra Comunidad
Title:	Energy Assistance
Contract Number:	58982
Contract Type:	Expense
Description:	Determination of eligibility for low-income energy assistance. Assist Low-income households, particularly Those with the lowest incomes who pay a high proportion of household income for home energy, primarily to meet their immediate home energy needs.
Selection Process:	RFP

Term:	10/01/2024-09/30/2029
Previous BOs:	N/A
Amendment Amount: (if applicable)	N/A
Approved Amount	\$300,000
Funding Source	State Funding from MGA
Health Implication Area Impacted:	Living on limited means negatively impacts the general quality of life, life expectancy, chronic mental and physical health conditions. Low income residents need financial assistance in covering energy costs, especially during the colder months of the year. The greater the wealth disparity the higher the marginalization and that marginalization takes an even greater toll on health, family stability and the ability to engage positively with the community. Energy support payments are critical for lower-income residents of Lane County.

The information required by the Board of County Commissioners to approve application and acceptance of a grant award is provided below. The Dovetail Program, composed of Community Health Workers (CHWs), is designed to bridge the gap between healthcare and social services, providing critical support to individuals facing housing instability and other social determinants of health. By offering tailored outreach and engagement services, the program empowers patients at the Community Health Centers of Lane County (CHCLC) to navigate and access essential resources, thereby reducing barriers to care and fostering greater trust in both healthcare and social service systems.

The demand for these services in Lane County is substantial, with needs far exceeding current capacity. Through a patient-centered, strengths-based approach, Dovetail not only addresses immediate concerns but also builds long-term resilience, enhancing the overall health and stability of our community. Restructuring the Dovetail Program to better support HRSN activities will enable a more targeted approach, ensuring that our most vulnerable residents receive the comprehensive support they need to thrive.

1. Please describe how grant impacts or obligates County funds. Provide grant budget details regarding the amount and which county funds will cover the expenses. To the extent the grant requires match or obligates Special Revenue other dedicated funds, please identify the specific revenue source. Please include obligations for the following:

- Cash or in-kind match
- Expenditures for administration, audit, and evaluation obligations, etc.
- Other program activities or expectations

Answer: No match is required. Financial support from this grant would provide the Dovetail Program necessary stopgap funding to continue forward with existing programming.

2. For any required match, which will be spent first - grant funds or other County funds - or will they be spent concurrently?

Answer: N/A, no match required.

3. Are there unique or unusual conditions that trigger additional County work effort, or liability, i.e., maintenance of effort requirements or supplanting prohibitions or indemnity obligations?

Answer: No, funds will be used in coordination with the CCO funding for this program.

4. Does the grant proposal include the addition of new County positions? If so, how much FTE, in what kinds of positions, and in which programs? Will these positions be regular, temporary, or extra help?

Answer: No additional FTE will be added.

5. Describe the plan for continuation of the grant program/project after the end of the grant. What is the expectation of grant stakeholders regarding future funding of the program/project? Please consider the applying department one of the stakeholders and describe any expectation of ongoing County funds (both discretionary and non-discretionary).

Answer: The Dovetail Program has been successfully integrated into the existing budget of the Community Health Centers (CHC) within the Division, positioning it for sustainable growth. To further enhance the program's ability to generate independent revenue, the PacificSource Community Capacity Building Funds (CCBF) were pursued to develop the necessary business operations to support Health-Related Social Needs (HRSN) activities. This strategic move enables Dovetail to begin receiving Medicaid reimbursement, which will continue to be a reliable revenue stream through September 2027, as the HRSN benefit remains available. Dovetail leadership, with its deep involvement in various Oregon Health Authority (OHA) committees, is actively advancing efforts to establish standard Medicaid fee-for-service reimbursements for the Community Health Worker (CHW) workforce. By building program infrastructure around Medicaid billing for HRSN services, we are significantly increasing the likelihood of achieving standard Medicaid reimbursement, backed by successful implementation, robust claims data, and growing recognition of CHWs as essential billing providers.

These strategies are carefully designed to ensure the program's financial sustainability without reliance on ongoing County funds. Moreover, Dovetail is proactively exploring Value-Based Payment agreements with Coordinated Care Organizations (CCOs) to further strengthen the program's financial foundation. It is a well-established practice for CHW programs to blend and braid multiple funding sources, and the Dovetail Program is no exception. By leveraging Medicaid Waivers like the new HRSN initiative, we are confident in our ability to sustain and expand the impactful work led by our CHWs well into the future.

6. To what extent will the grant cover the Full Indirect Cost or the A-87 Indirect Cost associated with the grant program/project?

- If only the A-87 costs are covered, how will the department cover the difference?

- As the County's Indirect Plan charges for actual indirect costs incurred in the prior year, how will the department plan to cover countywide indirect charges associated with the program in the fiscal year/s after the end of the grant?

Answer: The cost of indirects has been incorporated into the budget at the Federal indirect rate of 12.4531% to adequately cover the administrative costs associated with the current Dovetail programming.
