Health Implication Area Impacted:	Will assist Lane County Health & Human Services in meeting the goal of promoting and protecting the health and well-being of individuals, families and our communities through the provision of equitable and timely access to services.
Policy Issues:	Will assist Lane County Health & Human Services in meeting the goal of promoting and protecting the health and well-being of individuals, families and our communities through the provision of equitable and timely access to services.
Board Goals:	Safe and Healthy County. Support partnerships and collaborations to improve the health of our community.
Purpose:	Delegate authority to execute all documents required to receive funding.

The information required by the Board of County Commissioners to approve application and acceptance of a grant award is provided below.

Trillium entered into a grant agreement with Oregon Health Authority (OHA) whereby OHA provided Trillium funds to administer a community Capacity Building Funding grant opportunity. Trillium selected Lane County as an awardee of the Community Capacity building Funding Opportunity, and such award was approved by OHA. The Human Service Division through this grant will provide Health Related Social Needs (HRSN) Outreach and Engagement Services and Housing services to eligible Lane County Tenants. These Tenants will come as referrals from both CCO's to households that meet eligibility criteria. This would include receiving referrals from the CCOs via the closed loop system and providing rent assistance to the identified households.

The demand for these services in Lane County is substantial with needs far exceeding current capacity. Through a strength-based approach, the Human Service Division not only addresses immediate concerns but also builds long-term resilience, enhancing the overall health and stability of our community. Restructuring the program to better support HRSN activities will enable a more targeted approach, ensuring that our most vulnerable residents receive the comprehensive support they need to thrive.

1. Please describe how grant impacts or obligates County funds. Provide grant budget details regarding the amount and which county funds will cover the expenses. To the extent the grant requires match or obligates Special Revenue other dedicated funds, please identify the specific revenue source. Please include obligations for the following:

- Cash or in-kind match
- Expenditures for administration, audit, and evaluation obligations, etc.
- Other program activities or expectations

Answer: This grant does not have a match requirement. Financial support from this Capacity Building grant would provide the Human Services Division workforce development and technology enhancements to assist in building a program to distribute Housing Services as a Health Related Social Need (HRSN) reimbursable through the Medicaid 1115 waiver.

2. For any required match, which will be spent first - grant funds or other County funds - or will they be spent concurrently?

Answer: N/A, no match required.

3. Are there unique or unusual conditions that trigger additional County work effort, or liability, i.e., maintenance of effort requirements or supplanting prohibitions or indemnity obligations?

Answer: No, funds will be used in coordination with the HRSN funding for this program.

4. Does the grant proposal include the addition of new County positions? If so, how much FTE, in what kinds of positions, and in which programs? Will these positions be regular, temporary, or extra help?

Answer: Yes, 4 new FTE positions will be developed through the Human Service Division utilizing this grant as followed:

- 1 FTE Program Service Coordinator 2
- 1 FTE Office Assistant 2
- 1 FTE Bilingual Community Services Worker 2
- 1 FTE Community Services Worker 2

Grant funding will also be used to cover Supervisor's and Administrative Assistant's time necessary to create job descriptions, post interview, hire, onboard and train 4 new staff.

5. Describe the plan for continuation of the grant program/project after the end of the grant. What is the expectation of grant stakeholders regarding future funding of the program/project? Please consider the applying department one of the stakeholders and describe any expectation of ongoing County funds (both discretionary and non-discretionary).

Answer: While this grant does request a significant investment of FTE, we believe these positions will be sustained beyond the Capacity Building phase of the program through the ongoing billing for Medicaid 1115 funded housing services being provided.

6. To what extent will the grant cover the Full Indirect Cost or the A-87 Indirect Cost associated with the grant program/project?

- If only the A-87 costs are covered, how will the department cover the difference?
- As the County's Indirect Plan charges for actual indirect costs incurred in the prior year, how will the department plan to cover countywide indirect charges associated with the program in the fiscal year/s after the end of the grant?

Answer: The cost of indirects has been incorporated into the budget at the Federal indirect rate of 13.98% to adequately cover the administrative costs.

*Contract in place until terminated

B. Health Implications

The applicable contracts and amendments impact the Lane County Community Health Improvement Plan (CHIP) adopted via Board Order 21-01-26-07. Further details regarding the health implications and impacted areas are specified under each contract and amendment in A. Background/Analysis.

C. Alternatives / Options

1. Approve the actions in Exhibit A, and delegate authority to the County Administrator or their designee to sign the approved actions.
