

AGENDA CONSENT CALENDAR MEMO

Memorandum Date: June 24, 2025

Order Date: July 8, 2025

TO: Board of County Commissioners

DEPARTMENT: Sheriff's Office

PRESENTED BY: Chief Deputy Tom Speldrich

AGENDA ITEM TITLE: ORDER/ IN THE MATTER OF APPROVING A CONTRACT WITH AXON ENTERPRISES INC FOR THE PURCHASE OF TASERS IN THE AMOUNT OF \$423,063.36 AND DELEGATING AUTHORITY TO THE COUNTY ADMINISTRATOR TO EXECUTE THE AGREEMENT

I. MOTION

Move approval of a contract with Axon Enterprises Inc. for the purchase of 130 TASERs and associated necessary equipment in the amount of \$423,063.36 and delegate authority to the County Administrator to execute the agreement.

II. AGENDA ITEM SUMMARY

The Board is being asked to approve a contract with Axon for the replacement of TASERs throughout the Sheriff's Office (SO). TASERs are a less-lethal tool that are utilized within the jail and on patrol.

The TASERs currently in use were purchased in batches over several years with funding through grants and operating budgets. The TASERs currently in use are beyond their projected lifespan, outdated, and no longer supported or within warranty, making it difficult to purchase the cartridges, batteries, and other necessary components or to repair or replace the TASERs when they are damaged or otherwise fail.

III. BACKGROUND/IMPLICATIONS OF ACTION

A. Board Action and Other History

The Sheriff's Office utilizes TASERs to safely end confrontations that pose a risk of injury to Deputies, suspects, and community members. In some circumstances, they can be an alternative to deadly force. They are an effective tool that have been

used within the jail and in the field for many years. The TASERs in use today have been purchased, as needed, in batches over the past 20 years. Many of these have been purchased utilizing grant funds through the Department of Justice's Justice Assistance Grant (JAG). As deputy positions are added, the purchase of the TASER has been included in the start-up costs.

The TASERs currently in use by the Sheriff's Office are an older model and they are no longer covered by a warranty. They are no longer manufactured or supported by the company and the technology and design in modern TASERs have changed. It is becoming increasingly difficult and expensive to purchase the cartridges, batteries, and other necessary equipment for them or to have them repaired.

The SO will be replacing 130 TASERs and the associated cartridges, holsters, batteries and warranties. Replacement costs will be built into the budgets starting in Fiscal Year 2026-2027.

B. Policy Issues

The Sheriff's Office is governed by General Orders. Two of these orders address the use of force: G.O. 1.12 Use of Force and G.O. 1.14 Conducted Electronic Weapons. Initial and recurring training in their use and operations occurs as well.

C. Board Goals

Authorization of this purchase contributes to efforts to meet County goals as outlined in both the 2022-2024 approved Strategic Plan and the proposed draft of the 2025-2027 Strategic Plan. Specifically, in addition to being a clear move to "invest in public safety" (2024 Strategic Priority #1, Objective B) and "enhance public safety and resilience by investing in preparedness efforts to reduce harm" (2025 Strategic Goal #1), approval of this purchase will also "support core service in order to deliver high-quality, dependable and consistent customer service" (2024 Strategic Priority #3, Objective F). The TASER is viewed by the community as a universal law enforcement tool; our community members expect Deputies of the Sheriff's Office to have access to the means to safely resolve dangerous situations with reduced risk of serious injury. Deputies expect to have TASERs available to protect themselves from harm and to intervene in dangerous situations in a safe and effective manner. Without access to TASERs, Deputies must place themselves in positions of greater harm in order to attempt to resolve dangerous encounters, and situations may escalate unnecessarily due to the lack of appropriate protective tools available.

D. Financial and/or Resource Considerations

The Sheriff's Office has been working towards having replacement funding for equipment built into the annual budget process. TASERs have not yet been included so funding from reserves will be utilized for the initial purchase. Beginning with the FY 26-27 budget process, the life cycle and annual replacement amount will be

built into the operating budgets based on the number of units assigned to each program.

The purchase of the TASERs and accessories will be made utilizing a cooperative purchasing agreement with the League of Oregon Cities, master contract #PS20270.

E. Health Implications

TASERs offer a less-lethal use of force when a situation cannot be resolved by other means and the safety of Deputies, suspects, or the members of the public is at risk. Every reasonable effort will be made to de-escalate and diffuse the situation prior to any level of force being considered.

F. Analysis

Law enforcement personnel must have the ability to protect their own safety and the safety of others as they perform the duties of their jobs. TASERs are an effective alternative tool and offer options depending on the situation at hand. TASERs are the only less-lethal tool with the range to allow Deputies to maintain a safer distance from an aggressive or threatening suspect and still safely intervene, if necessary, while still being small enough for every Deputy to carry one on their person at all times while on duty. TASERs are the only less-lethal tool with stand-off range carried by, and available to, all Deputies without pre-planning or notice.

The equipment currently in use is out of date, production, and warranty, and replacement parts and cartridges are becoming less available as the stock is depleted. It is important for equipment to be upgraded as new technology is developed and to ensure it is in good working condition when it needs to be deployed. A malfunction due to worn or outdated equipment can put Deputies, suspects, and members of the community at greater risk of injury.

Historically, units were replaced with newer models when they failed completely, leaving staff with differing equipment. This also makes training more difficult as the units operate differently, and training must accommodate more than one standard model.

G. Alternatives/Options

The Sheriff's Office has two options at this time:

1. Option 1: Continue to use the outdated TASERs and purchase replacement parts as needed and as they are available from the manufacturer. As units fail, the new model would be purchased.

The advantage to this option is that less money would be spent at one time. The disadvantages are keeping outdated models in service longer and having multiple models of the equipment in place, with each piece having a different life cycle making tracking the replacement more difficult and time consuming.

2. Option 2: Purchase the newer model of TASER, along with holsters, batteries and cartridges, using funding reserved for equipment. The advantages to this option are a cost savings for making a large purchase, simplified logistics and training from all staff using a single model, and all units will be under warranty for the same amount of time and will all need to be replaced at the same time.

IV. RECOMMENDATION

Staff recommend Option 2.

WHEREAS, the parties agree to comply with the requirements of the Intergovernmental Cooperation Act as may be applicable to the local and state laws of the Participating Agencies;

WHEREAS, the parties desire to conserve and leverage resources, and to improve the efficiency and economy of the procurement process while reducing solicitation and procurement costs;

WHEREAS, the parties are authorized and eligible to contract with governmental bodies and Vendors to perform governmental functions and services, including the purchase of goods and services; and

WHEREAS, the parties desire to contract with Vendors under the terms of the Master Price Agreements;

NOW, THEREFORE, the parties agree as follows:

ARTICLE 1: LEGAL AUTHORITY

Each party represents and warrants that it is eligible to participate in this Agreement because it is a local government created and operated to provide one or more governmental functions and possesses adequate legal authority to enter into this Agreement.

ARTICLE 2: APPLICABLE LAWS

The procurement of goods and services subject to this Agreement shall be conducted in accordance with and subject to the relevant statutes, ordinances, rules, and regulations that govern each party's procurement policies. Competitive Solicitations are intended to meet the public contracting requirements of the Lead Contracting Agency and may not be appropriate under, or satisfy Participating Agencies' procurement laws. It is the responsibility of each party to ensure it has met all applicable solicitation and procurement requirements. Participating Agencies are urged to seek independent review by their legal counsel to ensure compliance with all local and state solicitation requirements.

ARTICLE 3: USE OF BID, PROPOSAL OR PRICE AGREEMENT

- a. A "procuring party" is defined as the Lead Contracting Agency or any Participating Agency that desires to purchase from the Master Price Agreements awarded by the Lead Contracting Agency.
- b. Each procuring party shall be solely responsible for their own purchase of goods and services under this Agreement. A non-procuring party shall not be liable in any fashion for any violation of law or contract by a procuring party, and the procuring party shall hold non-procuring parties and all unrelated procuring parties harmless from any liability that may arise from action or inaction of the procuring party.
- c. The procuring party shall not use this agreement as a method for obtaining additional concessions or reduced prices for similar goods and services outside the scope of the Master Price Agreement.
- d. The exercise of any rights or remedies by the procuring party shall be the exclusive obligation of such procuring party.
- e. The cooperative use of bids, proposals or price agreements obtained by a party to this Agreement shall be in accordance with the terms and conditions of the bid, proposal or price agreement, except as modified where otherwise allowed or required by applicable law, and does not relieve the party of its other solicitation requirements under state law or local policies.

ARTICLE 4: PAYMENT OBLIGATIONS

The procuring party will make timely payments to Vendors for goods and services received in accordance with the terms and conditions of the procurement. Payment for goods and services, inspections and acceptance of goods and services ordered by the procuring party shall be the exclusive obligation of such procuring party. Disputes between procuring party and Vendor shall be resolved in accordance with the law and venue rules of the state of the procuring party.

ARTICLE 5: COMMENCEMENT DATE

This Agreement shall take effect after execution of the “Lead Contracting Agency Endorsement and Authorization” or “Participating Agency Endorsement and Authorization,” as applicable.

ARTICLE 6: TERMINATION OF AGREEMENT

This Agreement shall remain in effect until terminated by a party giving 30 days written notice to “Lead Contracting Agency”

ARTICLE 7: ENTIRE AGREEMENT

This Agreement and any attachments, as provided herein, constitute the complete Agreement between the parties hereto, and supersede any and all oral and written agreements between the parties relating to matters herein.

ARTICLE 8: CHANGES AND AMENDMENTS

This Agreement may be amended only by a written amendment executed by all parties, except that any alterations, additions, or deletions of this Agreement which are required by changes in Federal and State law or regulations are automatically incorporated into this Agreement without written amendment hereto and shall become effective on the date designated by such law or regulation.

ARTICLE 9: SEVERABILITY

All parties agree that should any provision of this Agreement be determined to be invalid or unenforceable, such determination shall not affect any other term of this Agreement, which shall continue in full force and effect.

THIS INSTRUMENT HAS BEEN EXECUTED IN TWO OR MORE ORIGINALS BY EXECUTION AND ATTACHMENT OF “THE LEAD CONTRACTING AGENCY ENDORSEMENT AND AUTHORIZATION” OR “PARTICIPATING AGENCY ENDORSEMENT AND AUTHORIZATION,” AS APPLICABLE. ONCE EXECUTED, IT IS THE RESPONSIBILITY OF EACH PARTY TO FILE THIS AGREEMENT WITH THE PROPER AGENCY IF REQUIRED BY LOCAL OR STATE LAW.

Appendix for AI Technology

This AI Appendix shall only apply to Customers who license Axon Cloud Services in a Quote that specifically utilize AI Technology. Unless explicitly defined otherwise, capitalized terms used in this Appendix have the same meaning as those in the Agreement.

1. Definitions

- 1.1 AI Technology.** Refers to artificial intelligence functionalities embedded in Axon's Cloud Services, which may include: (a) Enhanced Evidence Management; (b) AI-powered redaction tools; (c) Large Language Model-based tools (e.g., "Draft One" "Policy Chat"); (d) Predictive Analytics for operational insights; or (e) Natural Language Processing (NLP) for text and speech analysis.
- 1.2 Model Drift.** The degradation of AI model performance due to changes in input data or external conditions, requiring retraining or updates.
- 1.3 Bias Mitigation.** Strategies and techniques used to identify, measure, and minimize bias in AI Technology.

2. Scope and Usage

- 2.1 Integration.** Axon AI Technology is intended to improve public safety, streamline operations, and ensure data accuracy. The AI functionalities will only be used as described in the Agreement or applicable documentation.
- 2.2 Data Use.** Axon acts as a Data Processor for AI Technology. All inquiries submitted are processed solely to provide accurate responses based on Customer Content submitted. Customer remains the Data Controller of all Customer Content. Axon and Axon's subprocessors do not train their models on Customer Content. Customers who elect to participate in Axon's ACEIP program can enter into custom agreements to assist in product development efforts like AI model training. Even in those cases, Axon operates carefully on redacted data and not on Customer Content.
- 2.3 Automatic Data Collection.** AI Technology may automatically collect Non-Content Data about user interactions with the service and their devices to enhance the functionality and security of the system. The details collected include, but are not limited to, the following:
- 2.4 User Engagement and Activity Metrics.** AI Technology may track key engagement statistics, including Daily Active Users (DAUs), Weekly Active Users (WAUs), and Monthly Active Users (MAUs). Additional metrics include new user activations, repeat usage rates, total queries submitted, follow-up query volume, session lengths, retention rates, and user satisfaction ratings (e.g., thumbs up/down feedback).
- 2.5 Sales and Adoption Tracking.** Axon monitors the number of licenses and agencies purchasing the service, including those in trial phases, fully deploying the service, and conversion rates from trials to paid subscriptions.
- 2.6 End User inputs.** Axon may process de-identified end-user inputs to the AI Technology, excluding Customer Content or any data that directly or indirectly identifies individuals.

3. Axon Responsibilities

- 3.1 Ethical AI Development.** Axon shall: (a) Follow its responsible innovation framework; (b) Engage with the Ethics and Equity Advisory Council (EEAC) for feedback; (c) Conduct testing to minimize bias and ensure reliability; and (d) Implement Bias Mitigation techniques in model development and deployment.
- 3.2 Security Program.** Axon will maintain a comprehensive information security program, including logical and physical access, vulnerability, risk, and configuration management; incident monitoring and response; encryption of digital evidence; and security education.
- 3.3 Transparency.** Axon will provide documentation describing AI functionalities and their intended use and disclose any material limitations, risks, or Model Drift incidents.
